MY CUSCO WALKING ROUTES / A

From the centre to San Blas

Estimated 2-3 h, including stops

I suggest three stops for noticing the city without turning the walk into a race.

Stop-by-stop diagram, not to scale; it does not show street turns.

MY WALK, STOP BY STOP

1. Plaza de Armas | 30-45 min

I start by looking at the facades from the square. I pick out one stone detail and one wooden detail; church visits are a separate activity.

2. Hatun Rumiyoc | 20-30 min

I continue towards the Twelve-Angled Stone and compare its joints with the neighbouring wall. I look without touching or leaning on the stone.

3. San Blas | 45-60 min

I suggest finishing near the small square. If I find an open workshop, I ask about the materials and request permission before taking photos.

The approach to San Blas is uphill and may include steps. To shorten the walk, I finish at Hatun Rumiyoc. I do not describe this as universally accessible.

My budget plan: outdoor visits; food, shopping, guiding and admission charges are separate.

MY BEFORE-YOU-GO CHECKLIST

- [ ] Grippy shoes, water and protection from rain or sun.
- [ ] Charged phone, saved route sheet and soles for purchases.
- [ ] Check opening hours if I want to enter a museum, church or workshop.
