MY CUSCO WALKING ROUTES / B

From the square to San Pedro

Estimated 1 h 30 min-2 h, including stops

For markets and everyday life, I suggest this separate alternative to the San Blas walk.

Stop-by-stop diagram, not to scale; it does not show street turns.

MY WALK, STOP BY STOP

1. Plaza de Armas | 20-30 min

I start in the square and choose a facade that interests me. I save any church visits for a separate outing.

2. Mercado de San Pedro | 45-60 min

I continue towards the market. I look for three unfamiliar ingredients and ask how they are used, keeping the aisles clear for shoppers.

I allow extra time for the transfer and check the pedestrian route before leaving. Expect crossings, uneven surfaces and changes in slope; I do not assume an accessible route.

My budget plan: I carry soles, check prices before buying and allow separately for food and souvenirs.

MY BEFORE-YOU-GO CHECKLIST

- [ ] Grippy shoes, water and protection from rain or sun.
- [ ] Charged phone, saved route sheet and soles for purchases.
- [ ] Check opening hours if I want to enter a museum, church or workshop.
