MACHU PICCHU LUNA TOURS

PISAC

Archaeological park and town

My visit sheet - English

TWO PARTS OF THE VISIT

Planning diagram, not a navigation map.

MY SUGGESTED ORDER

1. Confirm transport and the return meeting point.
2. Visit the park sectors open on the day.
3. Return by road using your arranged transport.
4. Explore town without compromising your next connection.

FOUR OBSERVATION IDEAS

- Terraces: follow the line of one terrace with your eyes.
- Buildings: compare openings and spaces.
- Stonework: look at the joints without touching the walls.
- Crafts: ask about material, origin and care.

BEFORE LEAVING

- ☐ I have confirmed the meeting point and return journey.
- ☐ I know which parts are by vehicle and which are on foot.
- ☐ I have explained any mobility needs.
- ☐ I have footwear with good grip and protection for changing weather.
- ☐ I will check which sectors are open when I arrive.

The park has steps and changes in level. Check which sectors are open on arrival. This sheet does not propose walking downhill to town or replace staff instructions.
